

We are extremely pleased with Indiana's Telephone Privacy Law and don't wish to see it changed in anyway. It is truly a pleasure to be able to answer our telephone knowing it is not a telemarketer. Unsolicited telemarketing calls are one of the most annoying invasions of our privacy. We do not buy or donate to anyone by phone, in fact if we had been considering a company or charity, we would not do so just because of the call. Please do not do anything that would change this law.
